How to Use These English Questions

Do not try to memorise all 1,000 questions at once. Choose one topic, read each question aloud, and replace the model information with your own answer. A short answer is correct, but one extra detail makes a conversation sound more natural.

- Practise 10 to 20 questions each day.
- Say each answer aloud at least twice.
- Record yourself and listen to your pronunciation.
- Ask a classmate or friend the same questions.
- Add one extra sentence to each model answer.
- Review difficult questions at the end of the week.

Speaking example
